DIFFERENTIATORS

- FAA PMA holder. One of only a few interior producers in the country certified to build parts that are approved prior to installation not after – mitigating risk
- Long history of designing, building and installing seat components in direct response to government needs
- Seating staff consists of highly skilled upholsterers, lead by a production manager with 35 years of industry experience
- Luminary's management team includes a test pilot with over 11,000 flight hours
- Designed seat cushions specifically for U.S. Army special mission use
- Compliant to NIST 800-171

PAST PERFORMANCE - CUSTOMERS

- **Sierra Nevada Corporation**: various U.S. government contracts 2016-2019 for PC-12 mission interiors. Seat cushions for Pilatus U-28A (U.S. Air Force), designed new seat cushions with increased durability to better meet mission requirements

- **L-3 Mission Integration**: Project Liberty and other government contracts; provided full STC'd King Air B300 interiors, which included seat cushions

- **GDC Technics**: Complete upholstery and assembly of Boeing 787 economy seats, January 2018
